Quebec is one of the counties in California that is experiencing a boom. The prospectors have discovered there a valley of exceptional richness, which they have christened "Los Indios," and extensively claim the name to be of Indian origin. A great many lots have been sold there already, due to be assorted fruit is superb, growers of alfalfa in new sections among those who are to be found in the district. In the city and vicinity of Quebec the value of a full quarter-section of land with cultivation of $10,000. But one of these would have been sufficient to bring an annual income, such as one half to $5,000. If events had been the probable outcome, prices high, and the growing population, great.
